Summary

Frontend / Full-Stack Engineer specializing in **React, Next.js, and TypeScript**, focused on building performant user interfaces and scalable web applications.

Experience developing **data-driven dashboards, SaaS platforms, and eCommerce applications** using modern full-stack architectures with Next.js, PostgreSQL, and Prisma.

Strong interest in **high-quality product experiences, frontend performance, and scalable component systems**.

Skills

Frontend

React • Next.js • TypeScript • JavaScript • Tailwind CSS • HTML • CSS • Recharts

Backend

Node.js • Next.js API Routes • Prisma ORM • PostgreSQL • Auth.js

Architecture

App Router • Server Components • REST APIs • JWT Authentication • SSR

Tools

Git • GitHub • Prisma Studio • pgAdmin • VS Code

Projects

StorePulse — eCommerce Analytics SaaS

Full-stack analytics platform that helps online store owners monitor **revenue, orders, and customer activity through a modern dashboard**.

Highlights

- Built a **secure authentication system** with Auth.js and JWT sessions
- Implemented a **real-time analytics dashboard** with KPI metrics and sales charts
- Designed **data visualizations for revenue, orders, customers, and top products**
- Built scalable backend with **PostgreSQL and Prisma ORM**
- Implemented **Server Components and API route handlers in Next.js**

Tech:

Next.js • React • TypeScript • Tailwind • PostgreSQL • Prisma • Recharts

eCommerce Platform (Next.js + Strapi)

Full-stack eCommerce application built with **Next.js frontend and Strapi headless CMS backend**.

Features

- Dynamic product pages with slug-based routing
 - Shopping cart system using React Context
 - Stripe payment integration
 - Server-side rendering for SEO optimization
 - Responsive UI built with Tailwind CSS
-

Blog Platform (Next.js + Strapi)

Content-driven blog platform using a **headless CMS architecture**.

Features

- Server-side pagination
 - Dynamic article pages
 - Comment system with moderation panel
 - SEO optimization (sitemap, robots.txt, slugs)
-

Experience

Frontend Web Developer — Personal & Freelance Projects

- Built modern web applications using **React, Next.js, and TypeScript**
- Designed reusable UI components and scalable project structures
- Integrated APIs and headless CMS platforms
- Developed data dashboards and interactive interfaces

Additional

- Interested in **AI-driven products and real-time applications**
- Comfortable working in **startup environments**
- Passionate about building **high-quality user-facing software**
