

Marius Herlea

Frontend / React / React Native Developer

GitHub: github.com/mariuserlea | Portfolio: marius-portfolio-kappa.vercel.app | LinkedIn: linkedin.com/in/mariuserlea

Professional Profile

Frontend Developer passionate about building modern web and mobile applications with React, Next.js, TypeScript and React Native. I focus on clean architecture, reusable components, performance optimization and intuitive user experiences. Experienced in integrating REST APIs, authentication, databases and scalable application design.

Core Skills

Frontend	React, Next.js, TypeScript, JavaScript (ES6+)
Mobile	React Native, Expo, Google Maps
Backend	REST APIs, Prisma, PostgreSQL, Strapi, Auth.js
Styling	Tailwind CSS, Responsive Design
Tools	Git, GitHub, npm

Featured Projects

TruckMate — Smart Navigation for Professional Drivers

Cross-platform mobile application built with React Native and Expo. Integrates Google Maps, custom map markers, intelligent clustering, interactive location cards and a scalable architecture prepared for backend integration, authentication and user-generated locations.

StorePulse — eCommerce Analytics SaaS

Production-style analytics platform built with Next.js, TypeScript, PostgreSQL and Prisma. Features KPI dashboards, interactive charts, authentication, scalable architecture and reusable UI components.

eCommerce Platform

Modern online store with authentication, dynamic product pages, shopping cart, responsive UI and API integration.

Blog Platform

SEO-friendly blog powered by Strapi with article management, comments, pagination and clean content architecture.

Strengths

- Strong UI/UX attention to detail
- Clean, scalable component architecture
- Performance-focused development approach
- Fast learner and problem solver
- Passionate about building production-ready software
